## “Age of Enlightenment” Trend Review 2008

Join the Mantra Artistic Team as they present the  
“Age of Enlightenment: A Time for Change”

They will discuss the myths and mystery about diversion, why it is on the increase and what you as a salon owner can do to protect your business. There will also be an introduction of Mantra’s new collection of cuts and styles for the upcoming season; a combination of techniques including wet and dry cutting, razor cutting, texturizing and finish work. Demonstrations of selection and application of styling and finishing products and the importance of communication skills between stylist and client will also be discussed.
